YOU WILL NEED:

 Glue  
 Scissors  
 Printed photos

# PHOTO HEART POP-UP CARD

## INSTRUCTIONS:

1. Print out pages 3 and 4 on 8.5 x 11" cardstock paper. Print page 5 on printer paper. Print out small photos on printer paper.
2. Cut out the big connected heart, the smaller pink hearts and the photos. I cut my photos into hearts.

3. Fold the front of the card in half. Set aside.

Fold the connected heart in half from left to right and unfold. Fold the connected heart in half again from top to bottom and unfold.

4. Fold the connected heart in half from left to right and unfold. It should create a diagonal fold like the photo above. Repeat from right to left and then unfold.

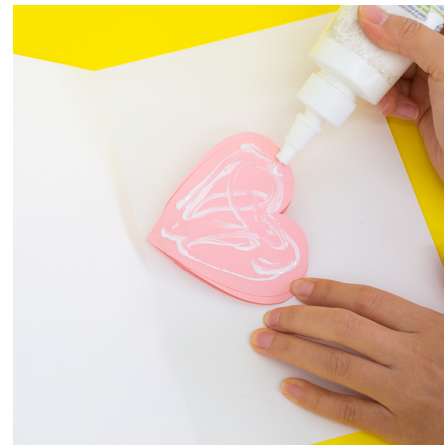

5. Place the connected heart in front of you with a heart on top and the sides folded in. It should look like the photo above.

6. Unfold and glue the smaller pink hearts in the middle. Glue your photos in the center of the hearts. Let dry and re-fold the connected heart.

7. Glue the right heart down onto the inside of the card. The point of the hearts should line up with the middle fold in the card.

8. Apply glue on the heart and fold the card so that the heart adheres to the inside. Let dry.

9. Unfold the card to reveal your pop-up! Add your own message and decorate to make it your own!

HAPPY  
MOTHER'S  
DAY
