

# new years eve wishing star

## Materials:

Printouts of stars  
a stick - eg chopstick  
Ribbon or streamers  
Scissors  
Glue  
Tape

## Instructions:

Step 1: print and cut out each star from the template, you may like to use all of them, or just a few (or make your own!)

Step 2: Using the largest star first, add your stars all the way to the smallest in a stack.

Step 3: Once you like the look of your star, add ribbon or streamers between the second and third star, using glue to ensure the star is held together.

Step 4: allow your star to dry, and tape your stick to the back. You can now use then it is ready to wave on NYE and make a wish!
